

This is a SHORT LIST of persons charged with murder or attempted murder in Metropolitan Monroe. It is a short list because it only accounts for those reported in the media. There are many others that were not reported. There has been a dramatic increase since 2011. Police respond to crimes of passion, they cannot prevent them. The first step to creating a non-violent community is to admit as a community that we have a serious problem that mere policing cannot prevent. It's not the mayor's fault or the fault of any person in government. We cannot ignore this problem. The statistics are true, for a city our size, we have a relative violent community. Anyone who denies the violent statistics should take a walk down memory lane and remind themselves that real people are facing criminal prosecution for violent crimes against real people in our community...too many violent crimes for a community our size.
